for fast support

Trusted by the biggest... and the most demanding

Every day, Carrousel supports hundreds of companies in food processing. Small, medium or large, they all share the same goal: finding reliable, high-performance solutions tailored to their needs.

Whether they process meats, dairy products, fruits and vegetables, ready-to-eat meals or baked goods, our clients choose us for:

- Our ability to respond quickly
- The expertise of our team
- The consistent quality of our products
- Our commitment to their success

Could your logo be next on this list?

“It’s so much easier having everything under one roof!”

Installation, repair, safety upgrades and maintenance of equipment across Quebec and Eastern Ontario, Carrousel’s technical service is here to support you. Large inventory of replacement parts and accessories

“It simplifies our operations to have access to large quantities of products always in stock.”

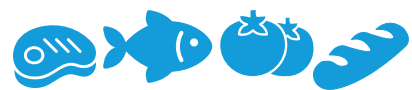

As Canada’s largest independant distributor of packaging products, Carrousel carries a wide range of food-packaging options. Ability to deliver in very large quantities.

“We have access to a team that truly understands our needs, and qualified technicians to maintain our equipment.”

In addition to offering a wide variety of products and services, Carrousel provides access to experts who can answer all your needs.

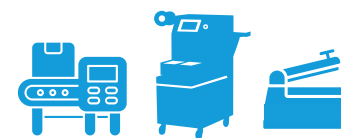

Preserve the quality and freshness of your products

We offer a wide range of solutions for packaging your food, whether individual or family-sized:

- Plastic, aluminum or glass containers
- Trays, aluminum plates, pie boxes
- Vacuum bags, stand-up pouches, rolls
- Stretch wrap, shrink films, specialty films
- Durable, reusable pails

Each product is designed to protect your food, maximize shelf life and meet food-safety standards.

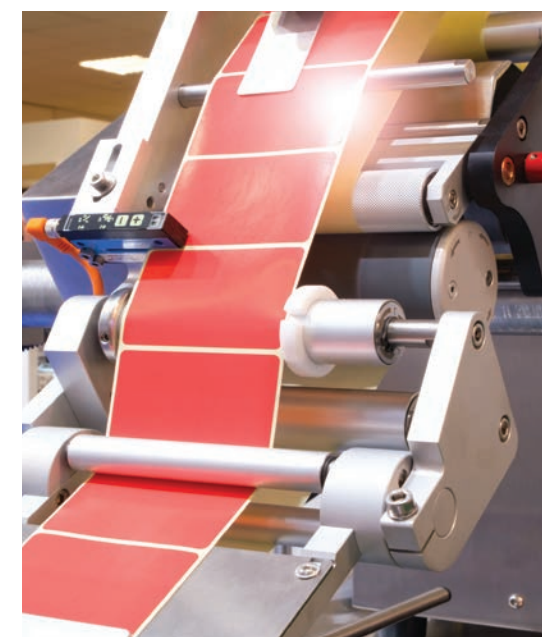

High-performance machines for every step

Optimize your production with equipment such as:

- Semi-automatic or fully automated tray-sealers
- Single or double-chamber vacuum machines
- Skin-pack and thermoforming machines
- Flow-wrap machines
- Conveyors and accumulation tables
- Labelling systems
- Bag formers, bag sealers and closures

Our experts guide you in selecting and integrating the most cost-effective solution for your business.

Reliable solutions for transport

Ensure your products remain protected until they reach the point of sale:

- Standard or custom corrugated boxes
- Hot-melt, acrylic or water-activated tapes
- High-resistance pallet wrap
- Corner guards, anti-slip sheets
- Polyethylene strapping

These solutions are designed to resist handling, humidity and temperature variations.

Automate your end of line

Save time, reduce manual effort and increase productivity:

- Pallet wrappers (turntable, rotary arm, fully automated systems)
- Case sealers and case formers
- Strapping tables

No matter the size of your project, our team ensures a solution that fits seamlessly into your operations.

The science of packaging, by Carrousel

At Carrousel, we don't just offer a wide range of solutions; **we master the science of packaging**. Our expertise ensures that every variable influencing product preservation and load stability is optimized for your needs.

Our specialized food-packaging and equipment sales teams guide you through all your purchases. Then, our technical service supports you with installation, preventive maintenance and equipment repairs.

1 The food film

- Substance to be covered
- Area to be covered
- Desired preservation properties
- Durability and protection

2 The container

- Required size
- Intended use (microwave, oven, etc.)
- Food preservation requirements
- Adaptation to transport
- Environmental characteristics and regulations

3 The automatic sealing system

- Machine selection based on production volume, material and desired preservation properties (tray-sealer, vacuum machine or thermoformer)
- Mold manufacturing/availability depending on the container used
- Maintenance of the film-distribution systems
- Calibration according to the required packaging

4 The labelling system

- Label placement
- Label type
- Throughput
- Required printing (variable or not)

5 The corrugated box

- Number of containers per box
- Preservation requirements (hot, cold, room temperature)
- Required size
- Strength (ECT)
- Box printing

6 The case former & sealer

- Box sealing method (glue, adhesive tape, water-activated tape)
- Box dimensions
- Production rate
- Presence of empty space inside boxes

7 The pallet

- Film selection
- Need for an anti-slip sheet, a cover sheet, or corner guards
- Pallet wrapping scheme

8 The stretch-film wrapper

Selection of the machine based on volume and materials to be wrapped

Maintenance of film-distribution systems

Calibration based on needs and materials

Support you can count on

At Carrousel, we know production downtime is costly. That's why our in-house technical team is dedicated exclusively to maintaining, repairing and optimizing your packaging and sanitation equipment.

What we offer:

- **15 specialized technicians**, ready to step in when you need them most.
- **Thousands of parts** in stock for fast delivery
- **Quick response** for both emergencies and planned maintenance
- **Multi-brand expertise** for all types of equipment
- **Preventive visits** to avoid unexpected failures

A complete support system

From installation to maintenance, including team training, our technical service ensures your equipment always performs at its best.

Impeccable hygiene and optimal safety

In the food-processing industry, facility hygiene and team safety are essential. Carrousel offers a complete range of products and equipment that meet the strictest standards.

For hygiene and sanitation

- Industrial and traditional hand soaps
- Dispensers for all environments
- Paper towels, toilet paper, wiping cloths
- Cleaners, degreasers and disinfectants
- Vacuums, sweepers, auto-scrubbers

For personal protection

- Goggles, gloves, earplugs, masks
- Hoods, caps, coveralls
- Sleeves, boot and shoe covers

GOAL:

Protect your products, your facilities and your employees, while ensuring compliance with food-safety regulations.

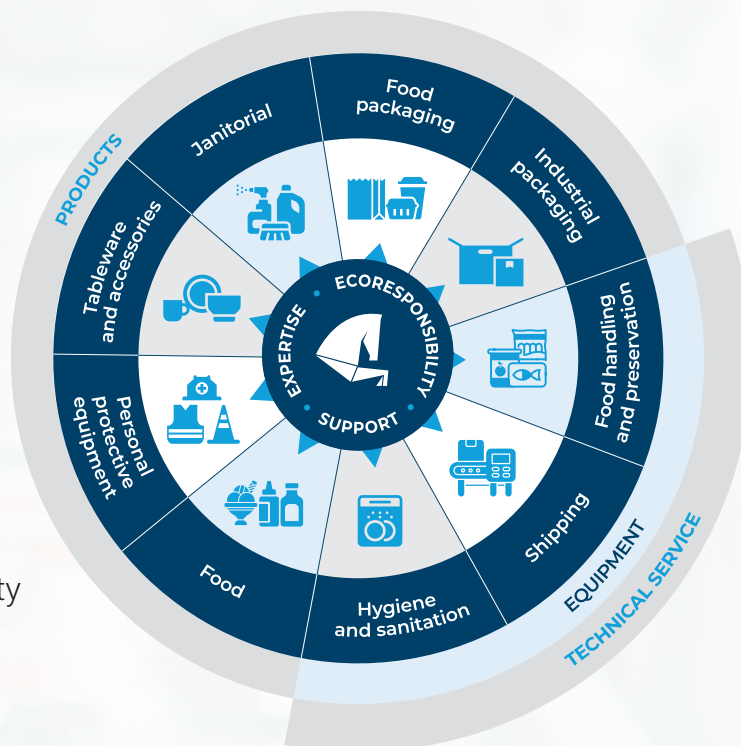

Carrousel is much more than a product catalog.

It's a **TEAM OF EXPERTS** in the field.

It's a **TECHNICAL SERVICE** that is responsive and committed.

It's a **COMPLETE OFFERING** of high-performance, customizable solutions.

It's a **PARTNER** who puts efficiency, reliability and sustainability at the heart of every project.
